

SWISSTAINABLE Switzerland is committed to becoming an increasingly sustainable tourist destination. Swisstainable is the Swiss sustainability program created by tourism for tourism. The main objective is to promote responsible tourism development, respecting the environment, local culture and communities. Sustainability is understood both in the use of public transport such as trains, buses and boats, and in the search for itineraries with overnight stays in small towns rather than cities (Lake Poschiavo, Kandersteg, Brienz...) for a more authentic vacation in contact with nature.

# SWITZERLAND IS COMMITTED TO BECOMING AN INCREASINGLY SUSTAINABLE TOURIST DESTINATION.

Sustainable travel doesn't necessarily mean having to go without. Sustainable travel means greater awareness and depth and more enjoyment. With this in mind, Switzerland follows its own sustainability strategy: Swisstainable.

**SWISSTAINABLE** is all about having one's finger on the pulse – and maximum relaxation in a natural setting:

- Enjoy nature up close and at first hand
- Experience the local culture in an authentic way
- Consume regional products
- Stay for longer and delve deeper

The Rigi was Europe's first cogwheel railway and was inaugurated in 1871.

The railway from Vitznau, with white and red trains, covers a difference in altitude of 1,313 meters over a distance of 6.9 kilometers with a maximum gradient of 25%, while the one from Arth-Goldau, with white and blue trains, overcomes 1,234 meters of altitude difference over a distance of 8.5 kilometers with a maximum gradient of 20%. Both railways are now electrified with 1500 volt direct cur-

rent and use the Riggerbach type cogwheel system. From Weggis, a small and idyllic holiday resort on the shores of Lake Lucerne, you can reach Rigi Kaltbad aboard a panoramic cable car in less than 10 minutes and then continue with the cogwheel railway to Rigi-Kulm.

TERMS AND INSURANCE  
PREMISES

• ADRASTEIA VIAGGI acts both as a seller, concerning the sale of tourist packages and individual services organized by third parties, and as an organizer, concerning tailor-made trips elaborated upon the specific request of the consumer.

1. LEGISLATIVE SOURCES The sale of tourist packages and services is governed by Law no. 1084 of 27/12/1977, ratifying and implementing the International Convention on Travel Contracts (CCV) signed in Brussels on 23/04/1970, by Legislative Decree no. 206/2005, and by Legislative Decree no. 79/2011.
2. AUTHORIZATIONS ADRASTEIA VIAGGI is authorized to carry out the activity of selling and organizing tourist packages and services in accordance with current regulations.
3. DEFINITIONS For the purposes of this contract: a. Travel Organizer means the entity that creates the combination of elements referred to in Article 4 and undertakes, in its own name and for a flat-rate fee, to procure tourist packages for third parties; b. Seller means the entity that sells, or undertakes to procure, tourist packages created pursuant to Article 4 for a flat-rate fee; c. Consumer of tourist packages means the purchaser, the transferee of a tourist package, or any person, including one to be named, provided they satisfy all the conditions required for the enjoyment of the service, on whose behalf the main contracting party undertakes to purchase a tourist package without remuneration.
4. DEFINITION OF TOURIST PACKAGE – Pursuant to Article 34 of Legislative Decree no. 79/2011 “Tourism Code”, the definition of a tourist package is as follows: “Tourist packages consist of trips, holidays, all-inclusive tours, tourist cruises, resulting from the combination, by whomever and in whatever way realized, of at least two of the following elements, sold or offered for sale at a flat-rate price: a) transport; b) accommodation; c) tourist services not ancillary to transport or accommodation as referred to in Article 36, which constitute a significant part of the tourist package for the satisfaction of the tourist’s recreational needs. The consumer has the right to receive a copy of the tourist package sale contract (pursuant to Articles 35 and 36 of the Tourism Code), which is also a necessary document to eventually access the Guarantee Fund referred to in Article 20 of these General Terms and Conditions.”
5. MANDATORY INFORMATION – TECHNICAL DATA SHEET The organizer prepares a technical data sheet in the catalogue, whose mandatory elements are: -details of administrative authorization, -details of civil liability insurance policy; For “tailor-made trips” organized by ADRASTEIA VIAGGI with specific customer requests, the organizer will provide the consumer with the exchange rates adopted at the time of signing the contract, the cost of transport including fuel costs, landing, disembarkation or embarkation fees at ports and airports, local taxes.
6. BOOKINGS The booking request must be drawn up on a specific contractual form, including electronic, completed in all parts and signed by the customer, who will receive a copy. The acceptance of the booking will be considered perfected only when the organizer sends a corresponding confirmation, also via electronic system, to the customer at the seller’s address or at the customer’s own address. Information not contained in the contract, brochures or other means of communication will be provided by the organizer before the start of the trip. Pursuant to Legislative Decree no. 79/2011, the right of withdrawal provided for in articles 64 et seq., as well as articles 52, 53 and 54.1, is not applicable.
7. PAYMENTS In case of sale of third-party tourist packages and services. Upon booking, a down payment must be made as requested by the organizer, in addition to registration fees and any ancillary costs. The balance must always be paid 30 days before departure. If the booking is made within 30 days prior to departure, the consumer will be obliged to pay the entire sum at the time of signing the contract. In case of organizing a “tailor-made trip” with specific customer requests. Upon booking, the full amount of air or sea transport costs or other types of transport, both outward and return, must be paid, in addition to embarkation and disembarkation taxes at airports, ports or other places designated for the departure and arrival of the means of transport chosen by the customer. Furthermore, upon booking, a deposit equal to 25% of the total cost of hotel services and any other service necessary for the execution of the mandate must be paid, in addition to registration fees and ancillary costs. A second deposit equal to an additional 25% must be paid 60 days before departure. The total remaining balance must be paid 30 days before departure. If the booking is made in the period between the 60th and 30th day prior to departure, the deposit to be paid will be equal to 50% of the total cost of hotel services and any other service necessary for the execution of the mandate, in addition to what is foreseen for transport costs. In case of booking made after the 30th day prior to departure, the consumer will be obliged to pay the entire sum at the time of signing the contract. In the case of pre-arranged groups (more than nine participants), the percentage of deposits to be paid, as well as the dates on which they must be paid, and the deadline for the balance, will be agreed upon each time at the signing of the contract. Failure to pay the aforementioned sums on the established dates constitutes an express termination clause such as to determine, on the part of ADRASTEIA VIAGGI, in its capacity as organizer, the termination of the contract by right, without prejudice to compensation for further damages suffered.
8. PRICE The price of the package and/or services is determined in the contract, with reference to what is indicated in the catalogue or off-catalogue program, and may be varied up to 20 days prior to departure due to changes in:
  - transport costs, including fuel costs;
  - landing, disembarkation or embarkation fees at ports and airports, local taxes;
  - exchange rates. For variations, reference will be made to the exchange rates and costs mentioned above in force on the date of publication of the program.

If the consumer does not accept the proposed modification, they may exercise the right to a refund of the sum already paid or to enjoy a substitute package or service as established in Article 10. The consumer may exercise the aforementioned rights even when the cancellation depends on cases of force majeure or unforeseeable circumstances, related to the purchased tourist package.
10. CONSUMER WITHDRAWAL The consumer may withdraw from the contract by notifying in writing to info@treninorosso.it. The consumer may withdraw from the contract, without paying penalties, in the following cases: A) price increase as per previous Article 8 exceeding 10%; B) significant modification of one or more elements of the contract considered fundamental for the overall enjoyment of what was booked, proposed by the organizer after the conclusion of the contract but before departure and not accepted by the consumer. In such cases, the consumer has the right to an alternative package, without a price supplement or with the refund of the difference if the second package has a lower value than the first, or may request the refund of the part of the price already paid. The consumer must communicate their decision in writing no later than two days from the date of the increase or modification notice. In the absence of express communication within the terms, the proposal is considered accepted. To the consumer who withdraws from the contract before departure outside the cases listed in points A) and B), cancellation penalties will be charged (regardless of the down payment referred to in Article 7) proportionally to the time between the departure date and the date of communication of the withdrawal as follows: In case of sale of third-party tourist packages and services. In the case of pre-arranged groups (more than nine participants), these sums will be agreed upon each time at the signing of the contract.

MODIFICATIONS AFTER DEPARTURE If, after departure, the organizer is unable to provide for any reason, except for the consumer’s own fault, an essential part of the agreed services, they shall arrange alternative solutions without price supplements, refunding the differences to the consumer if the services provided are of lower value than those foreseen. If there is no alternative solution, or if the solution prepared by the organizer is rejected for proven and justified reasons, the organizer shall provide, without price supplement and compatible with the availability of means and places, a means of transport equivalent to the original one foreseen for the return to the place of departure, and shall reimburse the consumer for the difference between the cost of the foreseen services and that of the services actually rendered up to the time of early return.

The seller is responsible for its quality as an intermediary and in any case within the limits provided by the relevant regulations.

LIMITS OF COMPENSATION Compensation for damages cannot in any case exceed the limits indicated in Articles 94 and 95 of Legislative Decree no. 206/2005.
